

Allie's Angels Childminding

Social Media Policy and Permission Form

With so many social network sites being used to communicate these days I thought it would be good practise to have a policy in place.

I have a facebook site for my childminding business 'Allie's Angels Childminding' please feel free to like the page. On this page I post updates on what activities we do, news and other information relating to childminding. There is no sensitive information posted such as my full name, address or any pictures of the house.

If you give permission I would like to post pictures of the children getting involved in activities and outings, these pictures would NEVER show their faces.

I also have a personal facebook account and will not post photos of your child on there without your permission.

If you have any concerns regarding this policy please discuss them with me.

I _____ do/do not give permission for Alison Sims to post pictures of my child _____ on the facebook page 'Allie's Angels Childminding'

Thank you
